Dear Mr. Givens,

As the owner of such a professional and efficient company, I want to congratulate you on a job well done on the Transportation tour through Prince George's County on Oct. 18, 2005. We all were very impressed with the skill and professionalism of your drivers who performed this important international task.

The dress and decorum of your drivers were acknowledged by all. It was noted that your staff placed the safety of the International Ambassadors above all else. There were congratulatory remarks by all of the Ambassadors to the affect that they had never experienced anything like this before.

The way your coaches kept up with the six motorized units from the Prince George's County Police Department keeping in mind the safety of all concerned was something to marvel.

It was my pleasure to have experienced this event first hand. It was in large part that your company's participation in this Ambassador's Day that went a long way toward bringing out the positive capabilities of this County.

We are all thankful to you and your employees for a "Job Well Done". You truly went a long way in helping us to accomplish our mission.

Rest assured of our continued support.

Sincerely,

A handwritten signature in black ink that reads "Jack Sims".
